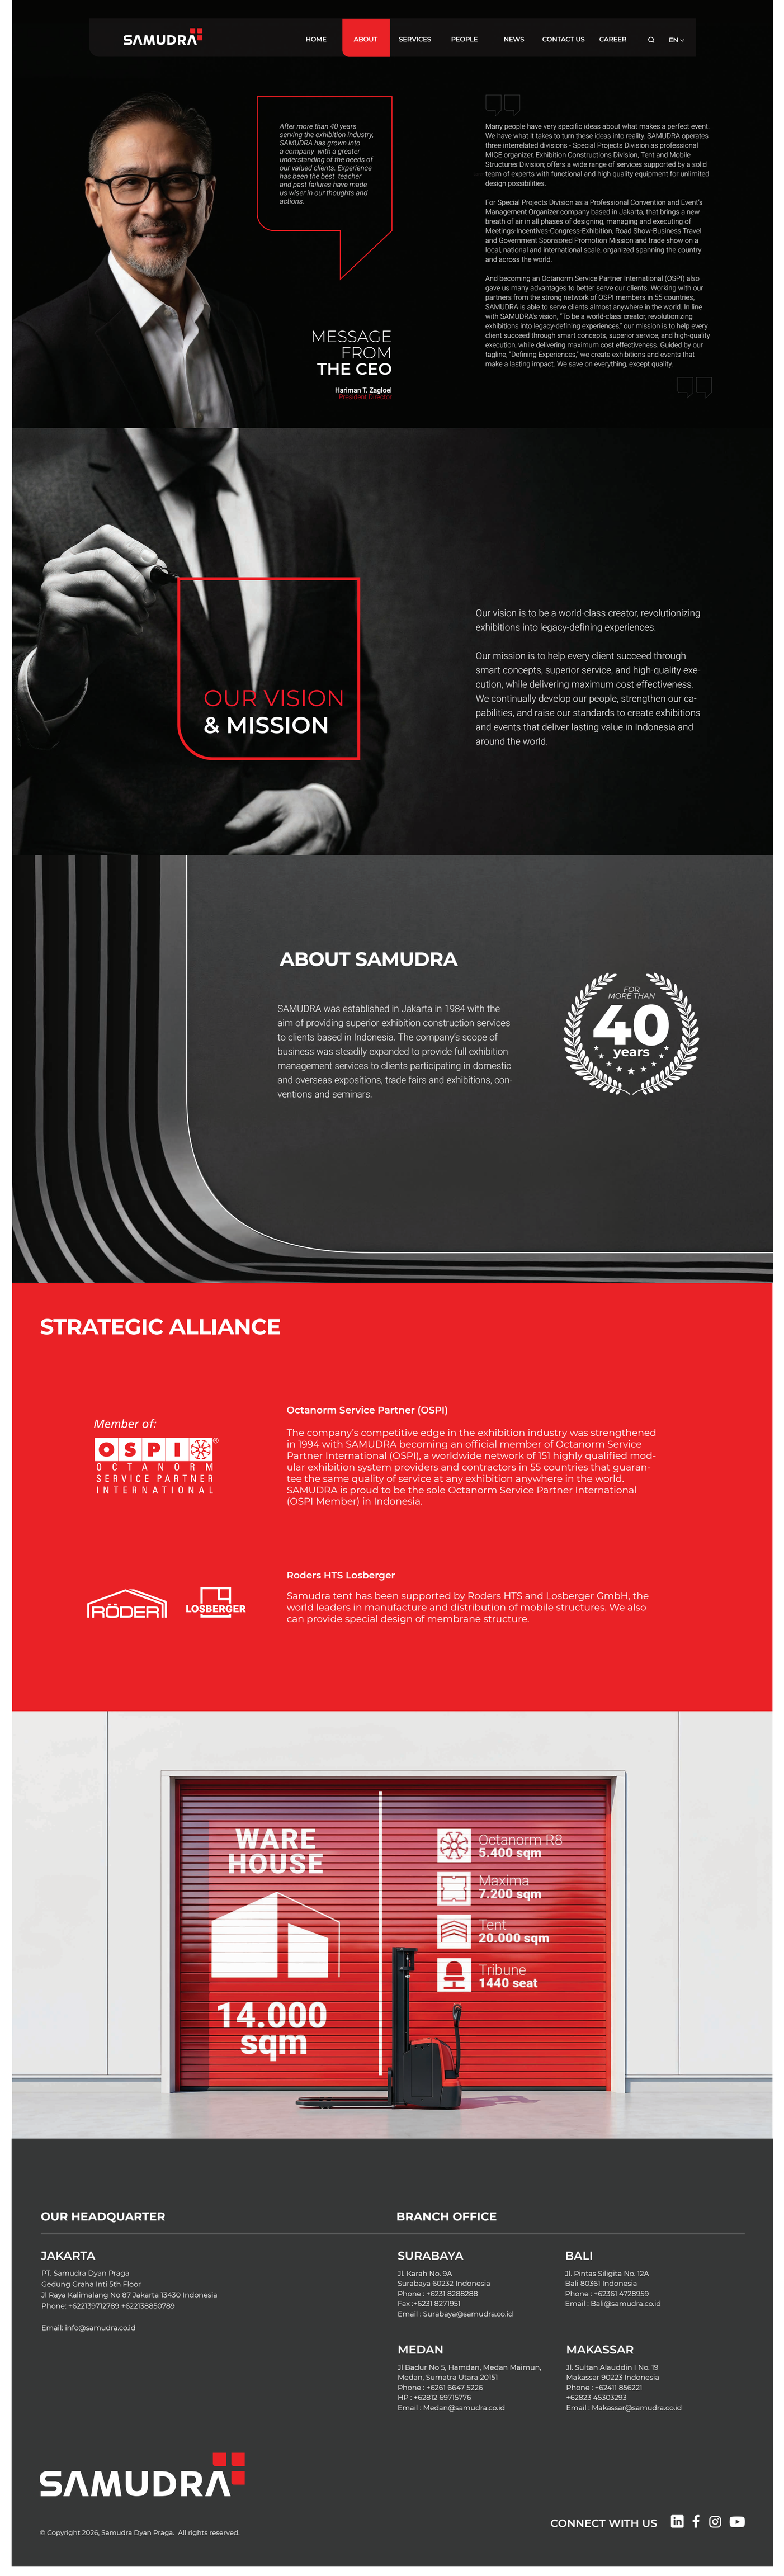
CONNECT WITH US



*After more than 40 years serving the exhibition industry, SAMUDRA has grown into a company with a greater understanding of the needs of our valued clients. Experience has been the best teacher and past failures have made us wiser in our thoughts and actions.*

## MESSAGE FROM THE CEO

Hariman T. Zagloel
President Director

Many people have very specific ideas about what makes a perfect event. We have what it takes to turn these ideas into reality. SAMUDRA operates three interrelated divisions - Special Projects Division as professional MICE organizer, Exhibition Constructions Division, Tent and Mobile Structures Division; offers a wide range of services supported by a solid team of experts with functional and high quality equipment for unlimited design possibilities.

For Special Projects Division as a Professional Convention and Event's Management Organizer company based in Jakarta, that brings a new breath of air in all phases of designing, managing and executing of Meetings-Incentives-Congress-Exhibition, Road Show-Business Travel and Government Sponsored Promotion Mission and trade show on a local, national and international scale, organized spanning the country and across the world.

And becoming an Octanorm Service Partner International (OSPI) also gave us many advantages to better serve our clients. Working with our partners from the strong network of OSPI members in 55 countries, SAMUDRA is able to serve clients almost anywhere in the world. In line with SAMUDRA's vision, "To be a world-class creator, revolutionizing exhibitions into legacy-defining experiences," our mission is to help every client succeed through smart concepts, superior service, and high-quality execution, while delivering maximum cost effectiveness. Guided by our tagline, "Defining Experiences," we create exhibitions and events that make a lasting impact. We save on everything, except quality.

## OUR VISION & MISSION

Our vision is to be a world-class creator, revolutionizing exhibitions into legacy-defining experiences.

Our mission is to help every client succeed through smart concepts, superior service, and high-quality execution, while delivering maximum cost effectiveness. We continually develop our people, strengthen our capabilities, and raise our standards to create exhibitions and events that deliver lasting value in Indonesia and around the world.

## ABOUT SAMUDRA

SAMUDRA was established in Jakarta in 1984 with the aim of providing superior exhibition construction services to clients based in Indonesia. The company's scope of business was steadily expanded to provide full exhibition management services to clients participating in domestic and overseas expositions, trade fairs and exhibitions, conventions and seminars.

## STRATEGIC ALLIANCE

Member of:

**Octanorm Service Partner (OSPI)**

The company's competitive edge in the exhibition industry was strengthened in 1994 with SAMUDRA becoming an official member of Octanorm Service Partner International (OSPI), a worldwide network of 151 highly qualified modular exhibition system providers and contractors in 55 countries that guarantee the same quality of service at any exhibition anywhere in the world. SAMUDRA is proud to be the sole Octanorm Service Partner International (OSPI Member) in Indonesia.

**Roders HTS Losberger**

Samudra tent has been supported by Roders HTS and Losberger GmbH, the world leaders in manufacture and distribution of mobile structures. We also can provide special design of membrane structure.

## PAVILION INDONESIA - OSAKA WORLD EXPO 2025

Special Project

Osaka, Kansai, Jepang, 13 April 2025 – Samudra Dyan Praga dipercaya sebagai kontraktor profesional dalam pembangunan Indonesia Pavilion pada ajang Expo 2025 Osaka yang digelar pada 13 April hingga 13 Oktober 2025 di Osaka, Kansai, Jepang. Kepercayaan tersebut menjadi bagian dari dukungan sektor swasta nasional dalam menghadirkan representasi Indonesia di forum global yang diikuti 158 negara dan diproyeksikan menarik lebih dari 28 juta pengunjung.

Dengan mengusung tema "Thriving in Harmony – Nature, Culture, Future", Paviliun Indonesia dirancang menyerupai kapal sebagai simbol warisan maritim Nusantara dan perjalanan menuju masa depan berkelanjutan. Dalam proyek ini, Samudra Dyan Praga bertanggung jawab atas pembangunan struktur utama paviliun serta instalasi area pameran yang mendukung pengalaman berkesan bagi pengunjung. Kontributor utama, Didit Hediprasetyo Foundation, turut terlibat dalam aspek desain, termasuk pengembangan interior serta kurasi berbagai program kegiatan di dalam paviliun, seperti rolling exhibition dan cultural performance yang menjadi daya tarik dinamis sepanjang periode Expo.

Proses konstruksi dilakukan dengan memperhatikan standar internasional yang berlaku di Jepang, termasuk penerapan prinsip keberlanjutan dalam pemilihan material dan sistem bangunan. Samudra Dyan Praga juga memastikan kesiapan ruang-ruang strategis untuk mendukung pengalaman pengunjung. Di dalam Paviliun Indonesia, pengunjung diajak menjelajahi zona yang memadukan kekayaan biodiversitas, ekspresi seni kontemporer, teknologi imersif, hingga narasi transformasi menuju Indonesia Emas 2045. Instalasi seni yang menginterpretasi satwa endemik Indonesia, pengalaman sinematik bertajuk "Nusantara Odyssey", hingga ruang forum bisnis menjadi bagian dari ekosistem pameran yang terintegrasi.

Selain pembangunan fisik, Samudra Dyan Praga juga berperan dalam manajemen penyelenggaraan pameran secara menyeluruh, mulai dari tahap pra-pameran, operasional selama pameran berlangsung, hingga penutupan acara. Keterlibatan ini menegaskan kapasitas Samudra Dyan Praga tidak hanya sebagai kontraktor konstruksi, tetapi juga sebagai mitra strategis dalam memastikan seluruh konsep dan agenda Paviliun Indonesia terealisasi secara optimal di panggung dunia.

## PAVILION INDONESIA - WORLD EXPO OSAKA 2025

Special Project

Osaka, Kansai, Japan, April 13, 2025 – Samudra Dyan Praga has been appointed as the professional contractor for the construction of the Indonesia Pavilion at Expo 2025 Osaka, held from April 13 to October 13, 2025, in Osaka, Kansai, Japan. This appointment reflects the active support of the national private sector in representing Indonesia on a global platform, which features 158 participating countries and is projected to attract over 28 million visitors.

Carrying the theme "Thriving in Harmony – Nature, Culture, Future", the Indonesia Pavilion is designed in the shape of a ship, symbolizing the maritime heritage of the Indonesian archipelago (Nusantara) and its journey toward a sustainable future. In this project, Samudra Dyan Praga is responsible for the main structural construction of the pavilion as well as the installation of exhibition areas that foster memorable visitor experiences. Key contributor, Didit Hediprasetyo Foundation, is actively involved in the design aspects, including interior development and the curation of various programs within the pavilion, such as rolling exhibitions and cultural performances that offer dynamic attractions throughout the Expo period.

The construction process strictly adheres to international standards applicable in Japan, including the implementation of sustainability principles in material selection and building systems. Samudra Dyan Praga also ensures the readiness of strategic spaces to enrich the visitor experience. Inside the Indonesia Pavilion, visitors are invited to explore curated zones combining rich biodiversity, contemporary artistic expressions, immersive technology, and the narrative of Indonesia's transformation toward Indonesia Emas 2045. Highlights include art installations interpreting Indonesia's endemic fauna, a cinematic experience titled "Nusantara Odyssey", and dedicated business forum spaces integrated into a cohesive exhibition ecosystem.

Beyond physical construction, Samudra Dyan Praga plays a pivotal role in overall exhibition management, spanning pre-exhibition preparations, operational management during the event, through to event closing. This involvement highlights Samudra Dyan Praga's capability not only as a construction contractor, but also as a strategic partner ensuring that all concepts and agendas for the Indonesia Pavilion are seamlessly realized on the global stage.
